

Larry Kane Band

Larry Kane -

With the 2011 release of his first Album, "Shout IT Out Loud", and two singles- "Uncommon Love", and "Beyond Sensational", Larry's music has been enjoyed by audiences in the US, Canada, Europe, and India. The upcoming October 2013 release of his second album entitled "What If?" represents a new and unusual fusion of Rock and R&B, exalting Jesus Christ in a way that speaks to the heart of those who are looking for relevancy in their lives. The former Greater Cleveland Director for "The Jesus Film" Project, Larry has performed internationally with groups which include Energy and Wild Cherry (play that funky music) and has been a studio sax player for quite a few artists including Pia Isadora, The Nashville Network band, Gary Grimes, and some Gospel groups, also playing live as sax soloist with Screaming Jay Hawkins, and the Dramatics. He has performed in venues ranging from Soul Train to American Bandstand to Attica Maximum Security Prison to schools, churches and clubs. Larry enjoys being really "over the top", giving all he has to entertain and encourage the audience.
